INEL (Representative: Boštjan Dokl Menih, CEO)

Company was founded in 1990 and started intensive activity in 2000. Our advantage is absolute accommodation to customer requirements. This was significant for fast development and growth on the market. Today we are employing over 180 employees and expanding our resources due to technological development and market request. We are developing and producing Print and Verify systems for pharma and other industries, end of line packaging systems, automatization equipment, labelling systems, SW applications compliant to our equipment and higher levels. Important breakthrough and growth we achieved after 2012 with serialization and aggregation requirements in different industries.
