**SLOVENIA'S  
BIOTECH & PHARMA  
OPPORTUNITIES**

**SWISS BIOTECH DAY 2026**

**GREEN. CREATIVE. SMART.**

## MEET THE SLOVENIAN BIOTECH AND PHARMA DELEGATION: INNOVATIVE, RELIABLE AND READY TO COMPLEMENT GLOBAL LEADERS

Dear partners and participants,

Slovenia's life sciences industry is built on a long tradition of pharmaceutical excellence and strong scientific foundations. It stands among the most dynamic and export-oriented pillars of the national economy.

The sector accounts for a significant share of the country's exports and employs more than 50,000 people, reflecting sustained investment in knowledge-based development and high-value production. With one of the highest numbers of doctoral graduates per capita and a strong record in scientific publication output, Slovenia combines research depth with advanced manufacturing expertise.

The participating companies at Swiss Biotech Day 2026 reflect a broad cross-section of life sciences and related industries, spanning microbial biotechnology, cell therapy technologies, CDMO services, pharmaceutical process systems, advanced cleanroom solutions and more.

The delegation is further complemented by expertise in metrology, automation, production informatics and enterprise IT systems, illustrating Slovenia's integrated approach to modern manufacturing and biotech development.

The showcase is organised by SPIRIT Slovenia Business Development Agency in partnership with Slovenia Biotech Hills, a platform connecting nearly 40 partners, including pharmaceutical companies, SMEs, startups, research institutes and universities. The initiative strengthens competitiveness, supports the development of an investment-friendly regulatory framework and promotes Slovenia as an attractive location for biotech research, development and manufacturing.

This publication offers an overview of Slovenia's strengths in biotechnology and pharmaceuticals and introduces the companies awaiting you at this year's Swiss Biotech Day. We invite you to review the profiles and connect with the on-site representatives in Basel to explore how their expertise can support your innovation, development or production activities.

Organisers of the presentation of Slovenian companies:

REPUBLIC OF SLOVENIA  
EMBASSY BERN

## AT A GLANCE

The strengths of Slovenia's economy and its biotech and pharmaceutical sector

- **A tradition in biotechnology and pharmaceuticals.** The biotech sector, along with pharmaceuticals, contributes more than 6% of Slovenia's GDP and directly and indirectly employs more than 50,000 people.
- **High added value.** The sector employs highly educated professionals who generate double the added value compared to the Slovenian average. Companies from this sector accounted for 34% of Slovenia's total exports last year. Added value per employee exceeds 120,000 EUR.
- **Innovations thrive in Slovenia.** Slovenians are known as one of the most innovative nations in Europe, with the number of biotechnological patent applications in Slovenia increasing by 15% annually. Pharma companies invest approx. 180 million euros in R&D annually, contributing to the rapid growth of the biotech sectors.
- **Export orientation.** The biotechnology and pharmaceutical sector accounts for over 40% of Slovenia's exports and re-exports.
- **Talent that creates value.** Slovenia ranks no. 1 in doctoral graduates per capita and ranks among global leaders in scientific publications per capita.
- **Top medicine producer.** Slovenia is the no.1 medicine producer in the CEE region.
- **Key Business environment indicators** (2025 estimates)

GDP	GDP growth	GDP per capita	Export growth
EUR 67.4 billion	1% (Q3: 1,7%)	EUR 31,698	0,2%

## ABOUT SPIRIT SLOVENIA

SPIRIT Slovenia is the point of contact for foreign investors as well as buyers of Slovenian products and services. The agency provides foreign companies wishing to enter the Slovenian market with strategic advice and operational support, along with practical assistance in exploring investment opportunities and connecting with local suppliers.

Learn more at [SloveniaBusiness.eu](http://SloveniaBusiness.eu) and contact our team if you have any questions about doing business in Slovenia. We look forward to supporting you in helping you realise the full potential of Slovenia's biotechnology and pharmaceutical sectors.

### › CORE BUSINESS

Microbial biotech CDMO

### › ABOUT THE COMPANY

Acies Bio is a leading European biotech CDMO delivering end-to-end solutions in microbial biotechnology, synthetic biology, and precision fermentation. With 20 years of experience and a team of over 100 scientists, we develop industrial bioprocesses via our SmartRoute™ platform, from strain design and screening to scale-up, downstream processing and contract biomanufacturing.

### › MAIN ACTIVITIES / PRODUCTS / SERVICES

- Strain development
- Bioprocess development
- Bioprocess scale-up
- Downstream processing
- Analytics
- Contract biomanufacturing
- Platforms and technologies

### › VALUE PROPOSITION / OFFERING

- SmartRoute™: integrated biotech development platform enabling optimized project desing and fast results
- Team of over 100 scientists with more than 25 PhDs and 20 years of experience
- Flexible biomanufacturing partner

### › SEGMENTS

Food/Feed, AgBio, Industrial

Litijska cesta 188  
SI-1261 Ljubljana-Dobrunje, Slovenia

Contact person: Mr. Luka Fajs

+386 51 262 757

luka@bio-recell.com

www.bio-recell.com

### › CORE BUSINESS

Enabling simpler, cleaner, more scalable cell processing for next-generation cell therapies.

### › ABOUT THE COMPANY

Bio-ReCell develops proprietary antibody-based technologies for cell separation and activation in advanced cell and gene therapy manufacturing. Our platform enables scalable, fully biocompatible processing of target cells without magnetic particles, supporting applications from research to clinical development.

### › MAIN ACTIVITIES / PRODUCTS / SERVICES

- Atract™ T-Cell Activation Kit
- Revive™ SVF Isolation Device
- Neptune™ T-Cell Separation Kit

### › VALUE PROPOSITION / OFFERING

Advanced magnet-free cell isolation and activation solutions reducing processing steps, handling time, contamination risk and costs in cell therapy workflows.

### › SEGMENTS

- Cell & Gene Therapy Developers (CAR-T, ATMP)
- Cell Processing & Biomanufacturing
- Biotech & Biopharma R&D

### › REFERENCES

## BRINOX d.o.o.

Sora 21  
SI-1215 Ljubljana, Slovenia

Contact person: Mr. Matevž Pance

+386 1 361 97 30

info@brinox.eu, matevz.pance@brinox.eu

www.brinox.eu

### › CORE BUSINESS

Design, manufacturing, and supply of upstream and downstream process systems and GMP washers for the pharmaceutical and biopharmaceutical industries.

### › ABOUT THE COMPANY

BRINOX is a global supplier of upstream and downstream process systems and GMP washers for the pharmaceutical and biopharmaceutical industries. With more than 40 years of experience, the company delivers design-to-build process skids and turnkey solutions, supporting clients from R&D and engineering to manufacturing, automation, qualification and after-sales support.

### › MAIN ACTIVITIES / PRODUCTS / SERVICES

- Turnkey process systems –design-to-build modular skids
- Bioreactors
- Media & buffer prep skids
- Filtration & chromatography skids
- CIP & SIP skids
- GMP washers for parts & IBC

### › VALUE PROPOSITION / OFFERING

Brinox is a one-stop partner for GMP-compliant pharma and biopharma process systems and GMP washers, offering high-quality, flexible, turnkey solutions trusted by leading pharma and biopharma manufacturers.

### › SEGMENTS

- Pharmaceutical manufacturing
- Biopharmaceutical & vaccine production
- Turnkey process solutions (clients needing fully integrated upstream/downstream systems and GMP - compliant equipment)

### › REFERENCES

Selected by global pharmaceutical and biopharmaceutical leaders who set the highest industry standards.

## CLEANGRAD d.o.o.

Ulica Rada Pušenjaka 1  
SI-9240 Ljutomer, Slovenia

Contact person: Ms. Marta Lorenčič

www.cleangrad.si

### › CORE BUSINESS

Design and supply of cleanroom projects.

### › ABOUT THE COMPANY

Cleangrad offers technologically advanced cleanroom solutions. With more than 20 years of tradition, more than 300.000 m2 complete solutions in building cleanrooms, its own development center and highest creditworthiness rating Cleangrad is recognised as a reliable partner in designing and building clean room projects.

### › MAIN ACTIVITIES / PRODUCTS / SERVICES

- detail design and project management
- walls, ceiling, doors, lighting and interlock for clean rooms
- clean room equipment and furniture
- pass box chambers, sliding doors, inflatable seal doors
- 48-hour service throughout Europe

### › VALUE PROPOSITION / OFFERING

- End-to-end delivery: design to installation
- In-house manufacturing and development center
- certified teams ensuring GMP & HSE compliance
- Reliable support, qualification & fast service across Europe

### › SEGMENTS

- Engineering
- Clean rooms
- Clean room equipment

### › REFERENCES

- Novartis
- Pfizer

### › CORE BUSINESS

Strategic and corporate communications and advisory, PA, brand positioning, business support, marketing, etc.

### › ABOUT THE COMPANY

A leading strategic communications consultancy based in Slovenia. Specializing in strategic and corporate communications, public affairs, media and stakeholder relations, and reputation management. It supports organizations in Life Sciences, Healthcare, Pharma and Biotech with communication strategies that translate complex science & innovation into clear narratives for policymakers, media, investors, and the public, alongside work across Energy, Finance, Infrastructure, and the Public Sector.

### › MAIN ACTIVITIES / PRODUCTS / SERVICES

Strategic / Corporate & Leadership Communication, Corporate Responsibility, Employee Experience, Public Relations, News & Media Relations, Crisis Communication & Corporate Reputation Management, Public Affairs & Lobbying, M&A Communication, Creative Campaigns, AI-Driven Communication Solutions, Research, Analytics & Insights, Social Media & Community Management.

### › VALUE PROPOSITION / OFFERING

- We help clients shape decisions, build trust, and influence stakeholders.
- We provide end-to-end support in strategic corporate communication and reputation management.
- Companies can expect measurable results for brand positioning, public perception, or crisis resolution.
- Our approach combines different services and solutions to achieve the client's goal.
- We serve public and private clients across multiple industries, ensuring tailored, high-impact strategies.

### › SEGMENTS

- Life Sciences, Pharma & Biotech, and Healthcare
- Industry, Energy, and Infrastructure
- Finance, Banking, and Insurance
- Other sectors

Pharma Forum Advisory and Execution of the Yearly Value of Innovation Conference, Biogen Pharma, Novo Nordisk, AstraZeneca, Slovenia Biotech Hills, Altamedics, Natural Pharmaceuticals etc.

## › CORE BUSINESS

Biotechnology CDMO specializing in the research, development and manufacturing of diverse biologic & ATMP products.

## › ABOUT THE COMPANY

World's leading CDMO specializing in the production of bacteriophage based products, as well as in the development and manufacturing of diverse high quality biologics, including pDNA, mRNA, OMVs, LBPs, and recombinant proteins. With GMP certified facilities, advanced analytical capabilities, and comprehensive fill & finish services, JAFRAL supports the full lifecycle of biologic products.

## › MAIN ACTIVITIES / PRODUCTS / SERVICES

- R&D and GMP manufacturing of biological products
- PRODUCTS: Bacteriophages, Plasmid DNA, LBPs, mRNA, Recombinant proteins, OMVs
- SERVICES: Development of manufacturing processes and analytical methods, preclinical/clinical material, Stability studies, Fill & Finish services, Preparation of CMC documentation

## › VALUE PROPOSITION / OFFERING

End to end, GMP certified manufacturing of advanced biologics & ATMP, as high quality, flexible CDMO that provides solutions from development to large scale production.

## › SEGMENTS

- Human therapeutics (advanced biologics & ATMP)
- Cell & Gene Therapy Developers
- Pharmaceutical & biotechnology companies

## › REFERENCES

- Clinical trials, magistral products
- Plasmid DNA: Europe's first gene immunotherapy trial for basal cell carcinoma of the head and neck
- Next generation CAR-T therapy
- Filling of products in liquid (sterile to non-sterile) or powder (spray drying, lyophilization)

### › CORE BUSINESS

CRDO (Contract Research and Development Organizations): providing research, development & analytical services for pharma and biotech industry.

### › ABOUT THE COMPANY

With nearly 30 years of experience, Labena CRDO supports global pharma and leading research institutions under the highest quality standards. We provide GMP-like R&D analytics for early drug discovery, biologics process development, GMP analytics, method development and release testing across modalities, and comprehensive GMP microbiology services, delivering expert guidance and trusted collaboration throughout the project lifecycle.

### › MAIN ACTIVITIES / PRODUCTS / SERVICES

- GMP Analytical Product Testing & Method Development for Biologics, CGT & Small Molecules
- GMP Release Testing
- GMP Microbiology
- Early drug R&D (Single-cell Sequencing, Spatial Transcriptomics)
- USP/DSP Development & Characterization

### › VALUE PROPOSITION / OFFERING

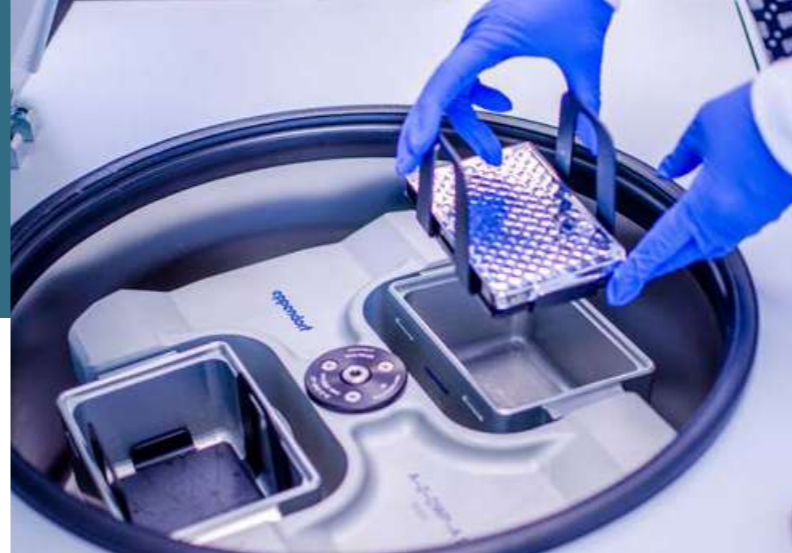

- Trusted CRDO with 30 year track-record
- GMP certified, FDA and EMA inspected
- Delivers on time and with flexibility to expectations its customers
- High-touch support, expert scientific guidance, and trust-based collaboration

### › SEGMENTS

- Small, medium and large pharma companies & biotechs – R&D analytics and process development
- Large pharma companies – quality control
- Research institutions & Academia

### › REFERENCES

- 30 years of sustained quality & partner satisfaction
- Over 5 large global (bio)pharma, many small and mid-sized pharma/biotech
- CTNNB1 Foundation; biodistribution analysis for AAV-based therapy
- multiple international research partners
