MEET SLOVENIAN INNOVATIVE SOLUTIONS IN GREEN TRAVEL, E-MOBILITY AND DIGITAL CONNECTIVITY

Distinguished reader,

Expo 2020 Dubai in UAE is a celebration of knowledge and cooperation, that is why it offers Slovenia an excellent opportunity to prove once again where it belongs: among the most progressive, innovative, and responsible countries in the world!

Slovenian economy is focused on sustainability, green technologies, corporate social responsibility, committed to reducing the carbon footprint and caring for the natural and social environment.

High quality of life, dynamic and diverse economy, fast-growing companies, and sustainable growth – these are just a few reasons why choosing Slovenia could be the best decision you have ever made if you are looking for a place to invest, reliable business partners, or just a place to set up your business. We at SPIRIT Slovenia work as a single point of contact for international businesses and we are here to help you to make this happen!

Slovenia is not big, neither by its size nor by its population, but we are big by our economic achievements. Innovation has always been at the centre of Slovenia's economic life for it is a critical component of its ability to remain competitive. Many Slovenian companies are so called hidden champions – world leaders in certain specific areas and niche technologies.

At Slovenian pavilion we will address global challenges and search for answers on how our physical world is increasingly shaped by digital technologies. Therefore, we kindly invite you to our national pavilion to meet Slovenian companies and their innovative solutions in the field of e-mobility, green tourism and digital connectivity and how they will shape our common future.

Networking or simply exchanging views with our companies will be an experience worth your time. Welcome!

Tomaž Kostanjevec, PhD, Director
SPIRIT Slovenia Business Development Agency

”

CORE BUSINESS

With Industry 4.0 technologies we are advancing sustainable growth by turning big ideas into Hi-Tech innovations.

ABOUT THE COMPANY

Arctur has been pioneering by merging research, science, art and business. The interdisciplinary spirit is the cradle of innovation in which concepts, solutions and products come to life under the motto: where creativity meets experience! The 30 year long tradition results in many internationally awarded, game-changing products using AI, Big Data, AR, 3D digitisation, etc. Always responsible: to our team, partners, local community and environment.

CORE BUSINESS

- Roto d.o.o. is a global roto-moulding specialist with more than 70 year of experience. Roto offers a complete In-House solution, from your idea to serial production.

ABOUT THE COMPANY

ROTO is a global producer of high-quality roto-moulded products from polyethylene, polypropylene, polyamide, XPE and ABS with production factories in four European countries. Company's mission is to provide and offer high-quality, multifunctional and environmentally friendly products that are distinguished by modern design and greater added value.

MAIN ACTIVITIES / PRODUCTS / SERVICES

Many years of experience in nautical industry and production of custom made roto-moulded products have made Roto a reliable and professional partner. After gaining a lot of experience in production of roto-moulded kayaks, canoes and sailing boats in 3-layer technology, we started to produce ROTO 450s – one of a kind motorboat on the market.

VALUE PROPOSITION / OFFERING

ROTO 450s is a unique motorboat on the market. It is roto-moulded in one part and made with 3-layer sandwich technology. This ensures the exceptional rigidity of the hull and high impact resistance versus its low weight and high capacity load. The material itself ensures an amazing buoyancy, UV stability and low maintenance costs.

SEGMENTS THAT ARE MOST RELEVANT FOR OUR COMPANY

- Motorboats,
- Pontoons,
- Kayaks and Canoes.

SLOVENIA AS THE GREENEST CROSSING TO EUROPE

Slovenia's transportation and logistics is one of the key development priorities of the Slovene economy. Its geographical position in Central Europe with a direct access to the Mediterranean sea through the port of Koper is the ideal point of entry for the supply chains for the Central and Eastern European markets. Port of Koper represents the shortest link from the Far East via Suez to Europe with a distance of 2,000 nautical miles shorter waterways compared to other North-European ports and around 5 -7 days shorter transit time. This advantage means optimization of the whole supply chain, making it more efficient and lean, with substantial cost and time savings for the customer. With the ongoing investments Slovenia is improving airport and railway infrastructure, which confirms the dedication of all stakeholders to offer potential clients the best conditions to develop their business in the region. The goal of 2022 Slovenian logistic delegation to EXPO 2020 Dubai is to convince the potential clients that they can receive excellent service and top logistics and supply chain solutions.

Most of the important economic partners are in the hinterland markets, which is the greatest potential for our clients to use access through Slovenia to the markets with 300 million consumers. With an offer of high-quality logistics services, we

present the shortest, smartest most reliable route to the heart of Europe. All this contributes that Slovenia became a logistics platform for goods flows directed to Central, South Eastern Europe and Balkan markets.

During the visit of Slovenian transport and logistic delegation to EXPO 2020 Dubai, we would like to present all the potential that transport and logistics companies can offer, so we invite potential clients to attend our business forum: **Slovenia as the greenest crossing to Europe** on 11. January 2022 at the Slovenian Pavilion, and take this opportunity to meet with companies members of the delegation who will introduce you concrete logistics solutions and their logistics services.

Robert Sever

CORE BUSINESS

- Comprehensive logistics solutions.

ABOUT THE COMPANY

In the year 2022 we're celebrating 30 years since we were established by Mr. Marjan Bezjak, 100 % private owner. We are a fast growing company with a clear growth and development strategy. Geographically we're having our companies in Croatia, Serbia, Austria but although you can find us all over the world. We have learned that one of the best compliments for our customers is meeting their expectations and accepting their suggestions or comments. It is this realization that leads us to expansion of activities, which offer our customers a comprehensive range of services from storage of goods, to customs and transportation services. We realize that **a satisfied customer is the best reference. We're inviting you to be the one, to be our customer. Contact us.**

MAIN ACTIVITIES / PRODUCTS / SERVICES

We rank among the most successful logistics companies, **because we know how** to implement the quality of our services, **we want to** improve ourselves and we all know that **we can** be even better.

INTEGRATED LOGISTICS SOLUTIONS IN ONE PLACE

Based on your needs and your course of business, we prepare for you the most efficient way of combining logistics

procedures into an integrated logistics process. We provide for you an integrated solution of the logistics process from reception of goods, the entry of goods into, and their removal from our storehouses, storage and commissioning of goods, customs clearance, and its final distribution to you or to your customer.

STORAGE: 65.000m² of storage area, storage cap, high shelf storehouse in height of 12m. **Access for commercial vehicles** collection of the goods shall be governed by the **loading bay**. **ADR storage**, automatic fire system. Air conditioned. Modern technical equipment (RF readers, printers). **INTERMODAL TRANSPORT: Implementation and organization of package distribution of goods** from our location to the whole region with delivery within 24 hours. **Implementation and organization of land transport** of temperature-sensitive goods in the total weight of 24,000 kg all over Slovenia and countries of geographical Europe with the response to 72 hours. **Implementation and organization of shipping**. **SERVICES:** commissioning. Tracking of goods from manufacturer to customer – myGPS. **E-CMR**. Custom services. Freight forwarding services. Providing information about goods and integration of parts of the logistics process, also external access to your inventory.

CORE BUSINESS

- Intermodal Transport by rail/road.

ABOUT THE COMPANY

International intermodal transportation road-rail was introduced in Slovenia in 1974 when the first rolling motorway trains Ljubljana – Cologne and Ljubljana – Munich started operating. In 1989, in order to accelerate the development of combined traffic Yukombi d.o.o. as an independent intermodal operator was established and later renamed to Adria kombi d.o.o. By its clear strategy over more than twenty-five years the company managed to develop an European train network for transporting containers, trailers, swap bodies and trucks connecting the main industrial hubs across Europe.

MAIN ACTIVITIES / PRODUCTS / SERVICES

TODAY, ADRIA KOMBI DAILY OPERATES TWENTY-FIVE TO THIRTY-FIVE TRAINS

The main supporting hubs of the Adria kombi company are its three terminals in Slovenia:

- Ljubljana for continental traffic and as Gateway hub,
- Koper for sea freight
- Maribor for the Rolling Motorway.
- Intermodal transportation. Transportation containers to and from the sea ports by rail.
- 72 destinations Europewide.
- Reliable service, short transit times, competitive rates, safety and security, GPS tracking and tracing.

Europacific Logistics, your one-stop partner for the European market.

“

DEAR CRAFTSMEN/CRAFTSWOMAN AND ENTREPRENEURS,

I am delighted that Slovenia is one of the 190 countries participating in the Expo 2020 in Dubai. Small in terms of population and geographical area, but large in terms of the number of innovative and successful craftspeople and entrepreneurs. Many of you are also exporters and you are well aware of the great value and importance of international events such as the Expo. We can certainly talk about the Expo of excellence, which will take place between 1 October 2021 and 10 April 2022 in Dubai. The organisers estimate that more than 25 million visitors from all over the world will attend the Expo.

The Chamber of Crafts and Small Business of Slovenia is also participating in the organisation of economic delegations to Expo Dubai. Together with SPIRIT Slovenia and the Ministry of Economic Development and Technology, we will also organise an economic delegation on the theme of "Travel, Networking and Mobility" which will take place between 12 and 16 January 2022.

For many years, the Chamber has been emphasising that road transport is vital to the EU economy, transporting more goods and more passengers than any other means and playing a key role in today's mobile society. Sustainable transport is an opportunity that contributes to the recovery and growth of the EU economy.

As part of this economic delegation, we will also organise a business forum on "Integrated Innovative Transport and Logistics Services and Solutions for Europe" which will take place on Thursday 13 January 2022 in the Slovenian Pavilion.

The aim of the delegation is to enable Slovenian companies to actively participate in the forum, to network with potential business partners from selected foreign markets, and to visit the Slovenian Pavilion and other pavilions at EXPO 2020 Dubai in a professionally guided manner.

We would be honoured if you would join us and take part in the business opportunities at Expo Dubai.

Branko Meh

President of the Chamber of Craft and Small Business of Slovenia

”

Execution of mechanical installations

ABOUT THE COMPANY

We have been providing all types of mechanical installations and top-of-the-line solutions since 1986. In addition, we have expanded our operations beyond the borders of Slovenia, especially to Austria and Croatia.

Our company excels in reliability, quality, and in always meeting the set deadlines. That is also the reason why all our partners trust us and why we have already successfully completed more than 1000 projects. Our vision is to keep the superior quality also in the future, strengthen our position in the Slovenian and foreign markets, and to keep meeting the needs of our clients and partners efficiently.

Why choose us?

- Because we always provide a professional high-quality service in accordance with the applicable legislation,
- because we stick to the set execution deadlines,
- because we will take care of the entire mechanical installations in your facility,
- because we use the materials from renowned and trusted suppliers,
- because we give several years of warranty for our work for a better peace of mind.
